

Paid Science Research Opportunity for Community College Students

Now Recruiting!

Apply now to become an NSF Research Fellow at the Oak Crest Institute of Science! This internship opportunity provides community college students with the unique opportunity to perform high-impact, independent research in atmospheric chemistry. Interns learn valuable research skills and techniques, such as how to run and analyze photochemical reactions.

Eligibility:

- currently enrolled at a local community college
- legally able to work in the US
- currently enrolled in/completed general chemistry (organic chemistry a plus)

Time Commitment: 20 hrs/wk for 20 wks

Pay: \$12/hr

To apply, email the following materials to jobs@oak-crest.org:

- cover letter and CV
- transcript
- letter of recommendation (optional, sent directly by your recommender)

Applications will be accepted until the position is filled, so students are encouraged to submit their applications as soon as possible!

Program Dates

Jan 2, 2013:	Internship begins
May 21, 2013:	Internship ends
